Lincoln Bypass Falsework Adjustments Will Affect Local Motorists

Lincoln – The California Department of Transportation (Caltrans) is alerting motorists that on Wednesday, April 29 at 8:15 a.m., traffic on Ferrari Ranch Road west of State Highway 65 will be subject to detours between Groveland Lane and Caledon Circle for falsework adjustments. Final adjustments are being made on the falsework and the traffic lanes and shoulders underneath will be closed for the safety of motorists. The falsework is for the new Route 65 Bridge over Ferrari Ranch Road, one of 17 bridges being constructed as part of the Lincoln Bypass Project.

Weather permitting, flaggers will be assisting motorists at the Ferrari Ranch Road/Groveland Lane Intersection and the Ferrari Ranch Road/Caledon Circle Intersection. Groveland Lane will be open between Joiner Parkway and the Lincoln Crossing Clubhouse, but closed between the Clubhouse and Ferrari Ranch Road. Motorists on Joiner Parkway will need to turn at Ferrari Ranch Road instead of Groveland Lane to access local businesses. Weather permitting, this phase should be completed by 8 p.m.

The work being done is part of a \$325 million project to create an 11.7-mile bypass around the City of Lincoln. Completion is expected in 2012.

Unexpected weather may prolong or cause the work to be rescheduled. Roadside message boards will be used to post the latest information. Caltrans urges all motorists to use caution in this area and to "Slow for the Cone Zone".
